Stocks at London.

New York, Aug. 8.-The Evening Post's. London finacial cablegram: The stock markets here opened good today, on the markets here opened good today, on the prospect of peace between the United States and Spain and consequently Americans led in the upward movement. But the buving was principally from New York, Here interest is aroussed, but nothing more. The New York buying of bonds is still heavy. Samish securities were strong but closed under the best. The feature today was the sharp fall in De Beers Diamond shares. They were heavily sold here and from the Cape. The fall was accompanied by rumors of difficulty in reacting the next contracts, a falling off in the quality of the stones and that the next Cape government may place an especial rax on diamonds.

Wheat Prices Declined On Expectation of Heavier Receipts.

Chicago, Aug. 8.—Higher Liverpool cables and small receipts started September wheat hic above the price it closed Saturday. Sellers at the advance were so num-rous, however, that the buying orders in the market at that time were immediately filled. Offerings still continued in such heavy volume after this demand was satisfied that a quick decline set in, knocking a cent a bushel off the opening naures. The change from seeming strength at the opening to its succeeding weakness was due to selling of long wheat by heavy traders, who anticipated a freer movement in the near future from first hands. They knew that if they waited for its realization it would probably be impossible to dispose of their holdings at any such prices. Among the reasons for continued weakness were heavy estimated receipts for tomorrow and some crop reports of a bearish character. The shipment demand here was even more urgent than at any time during the previous week's advancing market. As high as 7 cents premium over September price was paid for one lot of No. 2 red and plenty more could have been disposed of at the same premium but for holders advancing the previous week's advancing market. As high as 7 cents premium over September closed Hafibac lower.

Ample rains Saturday and Sunday started corn weak today. The decline was only temporary, however, as reports of crop prospects were far from giving assurance of a entisfactory yield. The close was sic nigher than Saturday.

Reports of rust and blight had a brilliant effect in oats for a time, but this feeling wore off as wheat continued to grow lower. September closed 4c lower.

Provisions, like wheat declined in spite of buillish news. Receipts of hogs were small and prices at the yards were bigher. Owing to a lack of demand, however, prices sagged off readily on some selling. Pork declined 125, lard tyc and ribs 126.
